REMOTE CONTROL

QuickLink Pro

User manual

Last updated: 17 November 2026

Welcome

Thank you for choosing the QuickLink Pro.

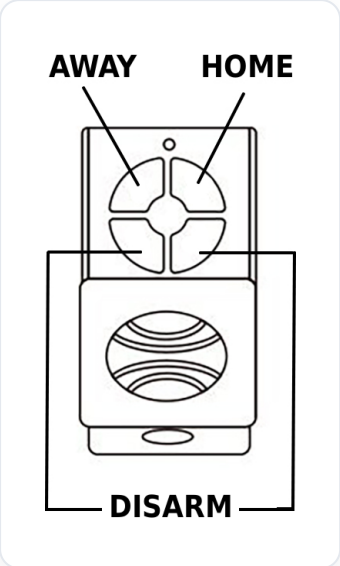

With the QuickLink Pro you arm and disarm your alarm system with a single press, without walking to the alarm panel or picking up your phone. The sliding cover protects the buttons, so they are not pressed by accident in your trouser pocket, coat or bag.

The QuickLink Pro works with the ShieldLink Lite, Plus, Pro and Elite and with the CamperGuard Pro.

1 The buttons

Button layout: Away, Home and Disarm twice

Cover closed: the buttons are protected

Button	What it does
Away (top left)	Arms the system: everyone has left, every sensor triggers the alarm
Home (top right)	Arms in Home mode: only the sensors you have set for Home are active
Disarm (both bottom buttons)	Disarms the system — you can use either the left or the right button

Each time you press a button, the light at the top flashes briefly: the QuickLink Pro is sending its signal. The remote itself does not show a status — whether arming or disarming worked, you hear from the alarm panel or see in the app.

2 The sliding cover

Slide the cover up to protect the buttons, and down to use them again. With the cover closed you can carry the QuickLink Pro loose in your pocket or bag without worrying.

- Slide the cover open, press the button and slide it shut again straight away: that way it becomes a habit.
- The light remains visible with the cover closed.
- Is it on your key ring? Then keep the cover closed by default, so a key in your pocket never disarms your alarm by accident.

3 Pairing with your alarm panel

1. Put your alarm panel in pairing mode for a remote control — see the table below.
2. Slide the cover open and press any button while the alarm panel counts down. The alarm panel confirms the pairing.
3. If you like, give the remote a name in the app, such as “Sarah’s keys”.

GOOD TO KNOW

Every alarm panel pairs accessories in its own way. The short version is below; you will find the full steps in your alarm panel’s manual, in the chapter on pairing accessories. All manuals are at neroo.eu/pages/manuals.

Alarm panel	How to start pairing
ShieldLink Pro, Elite and CamperGuard Pro	Connection → Remote → “+ Pair” (user code, default 1234)
ShieldLink Plus	Menu → Accessories → Remote → “+”
ShieldLink Lite	Settings ⚙ → admin code → 1 → 1 → ✓ (quick pairing)
Via the app	Open the alarm panel → Accessories → “+”

4 Handy in daily use

- Arm as you pull the door shut behind you: press Away as soon as you are outside. With an exit delay set on the alarm panel, you can also do this indoors in time.
- Disarm before you open the door, so no entry delay starts running.
- The range is up to 100 metres in open field. Indoors, through walls and floors, it is less — test it from the places where you use it, such as the driveway.
- Give each member of the household their own remote. You can pair up to 6 per alarm panel.

WARNING

Lost your QuickLink Pro? Remove it from your alarm panel straight away, so that whoever finds it cannot disarm your system. On the Pro, Elite and CamperGuard you do this under Connection → Remote; on the Plus under Menu → Accessories → Remote; on the Lite you delete all remotes with Settings ⚙ → admin code → 2 → 6 → ✓, and then pair the remaining ones again.

5 Replacing the battery

The battery lasts up to 2 years. If the light no longer comes on or only very faintly, or the alarm panel stops responding, replace the battery.

1. Carefully open the housing.
2. Take out the old battery and insert a new one of the same type, with the plus (+) facing the same way.
3. Close the housing again and test a button.

6 Specifications

Type	Wireless remote control with 4 buttons and sliding cover
Works with	ShieldLink Lite, Plus, Pro and Elite · CamperGuard Pro
Wireless	433 MHz · range up to 100 m in open field
Battery life	Up to 2 years
In the box	QuickLink Pro

7 Warranty & support

Your QuickLink Pro comes with a manufacturer's warranty. Questions or need help? Our team is happy to help.

- E-mail: service@neroo.nl · Phone: +31 85 850 0107
- Manuals, videos and frequently asked questions: neroo.eu/pages/manuals
- At the end of their life, hand the device and the battery in at a collection point (WEEE).
